1. **Open the link, press Make a copy**
2. **Start on Start Here**

Your guide, tab by tab.

Home

Begin on Home. Four inputs make your first plan.

1 Type here: Pay date

2 Type here: Pay

3 Fills in by itself: Left to assign

Your guide, tab by tab.

Plan

Plan general expenses here; bills, funds and debt are added from their tabs. History stays in Transactions.

ID	Category	Expense plan	Spent	Total plan
C01	Housing	0.00	1,100.00	1,100.00
C02	Food and essentials	650.00	160.00	650.00
C03	Utilities	120.00	60.00	180.00
C04	Debt interest	0.00	15.00	0.00
C05	Transport	100.00	0.00	225.00

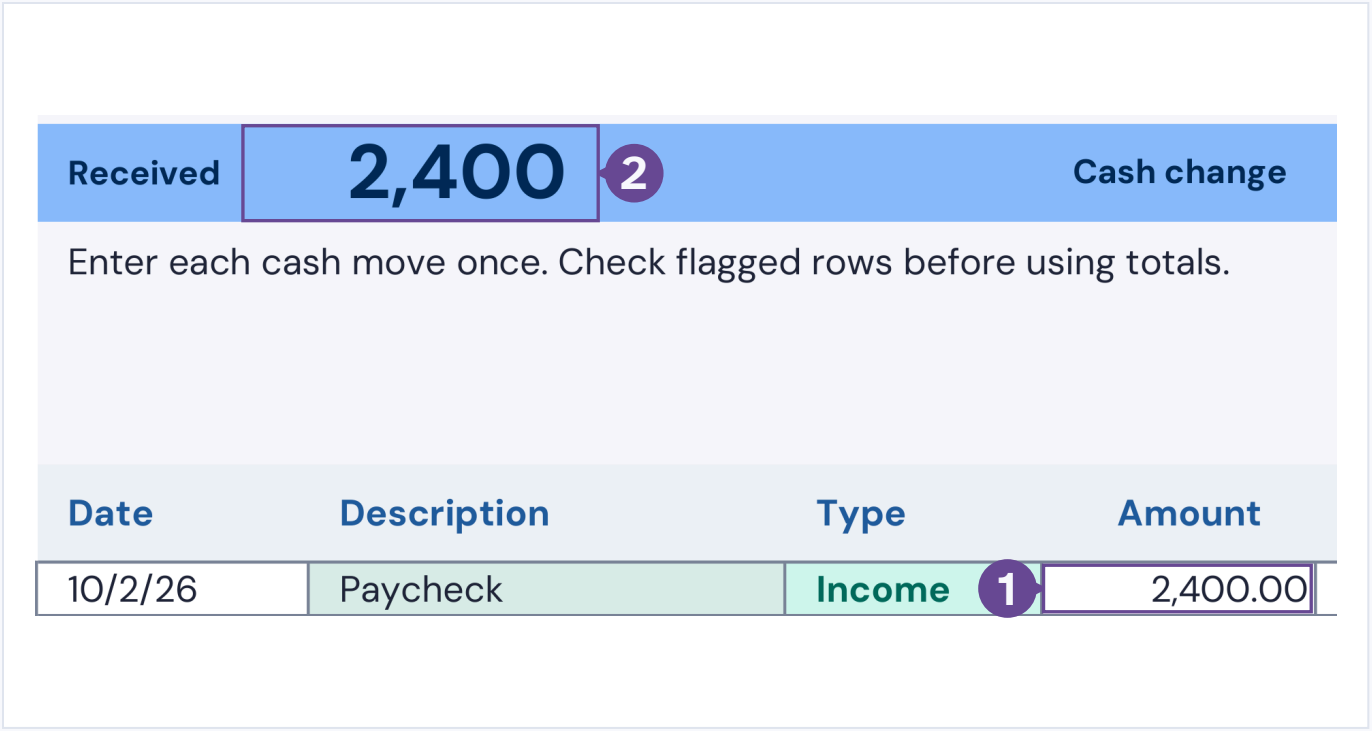

1 Type here: Expense plan

2 Fills in by itself: Spent

Your guide, tab by tab.

Transactions

Enter cash once. Positive amounts; refunds reverse spending; transfers have zero cash impact.

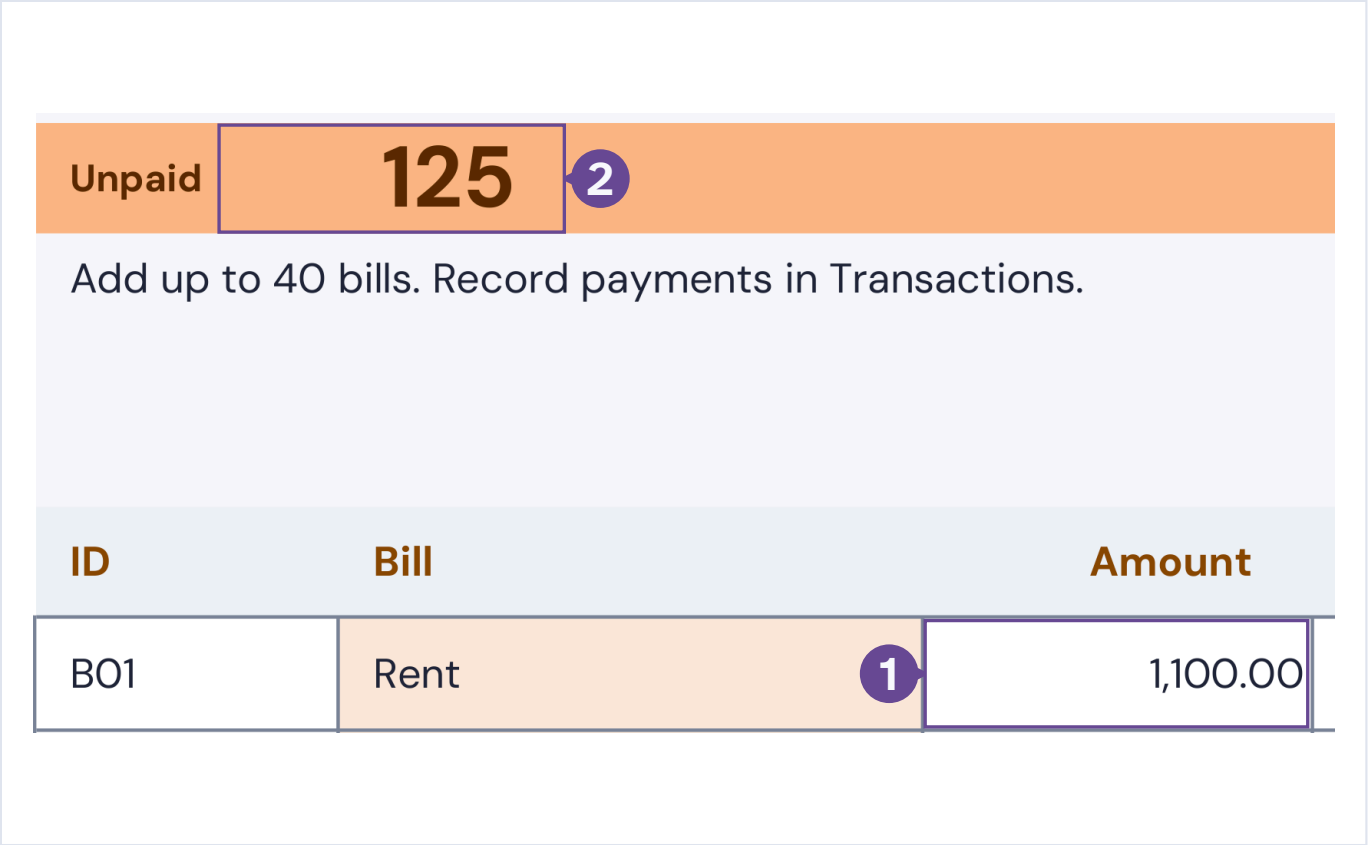

1 Type here: Amount

2 Fills in by itself: Received

Your guide, tab by tab.

Bills

Exact due dates and linked payments. Canceled items leave forecasts; past unpaid bills remain flagged.

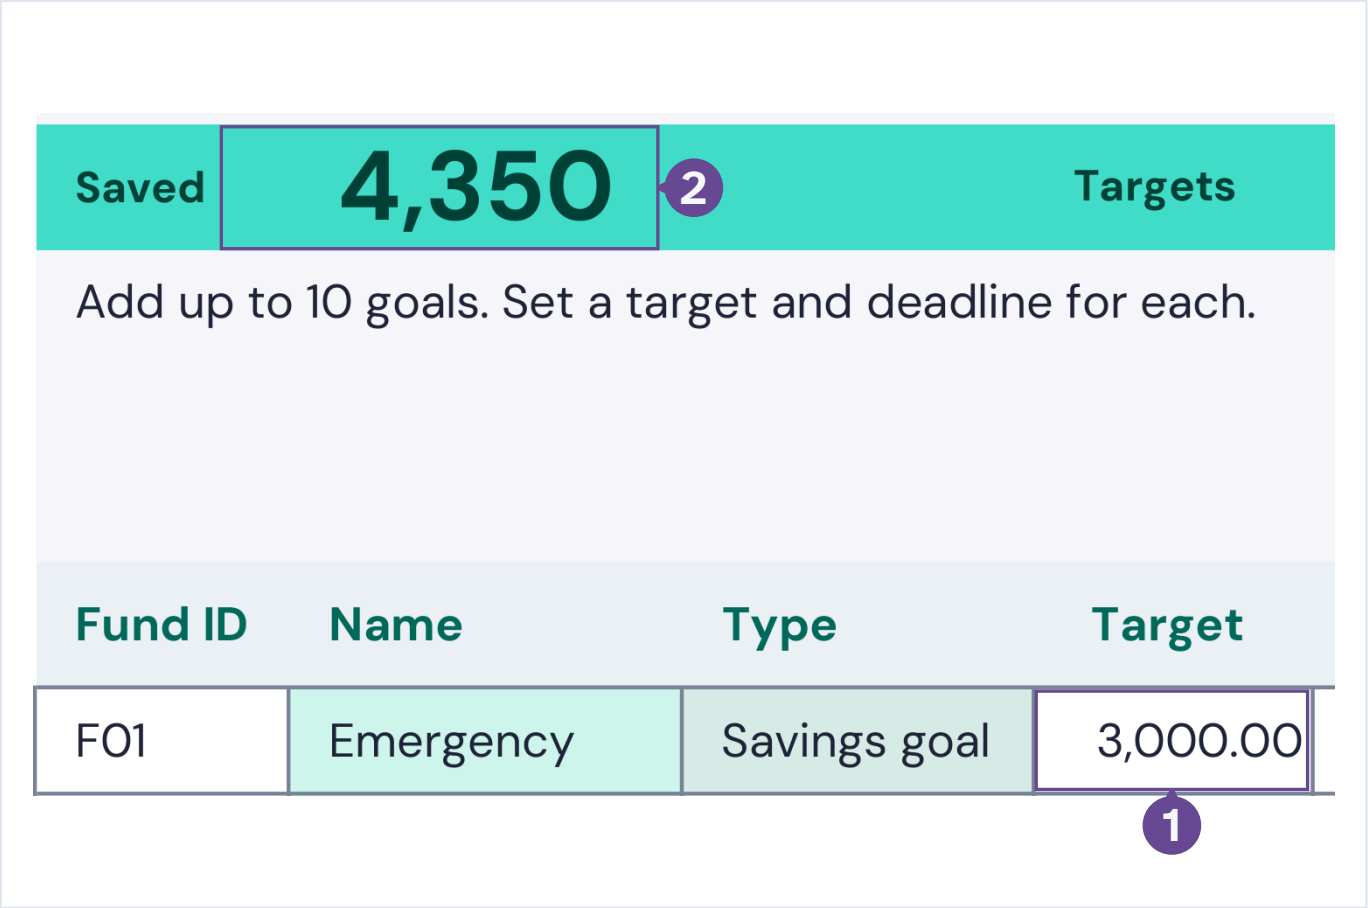

1 Type here: Amount

2 Fills in by itself: Unpaid

Your guide, tab by tab.

Funds

Set money aside for savings and future costs. Fund transfers stay separate from spending.

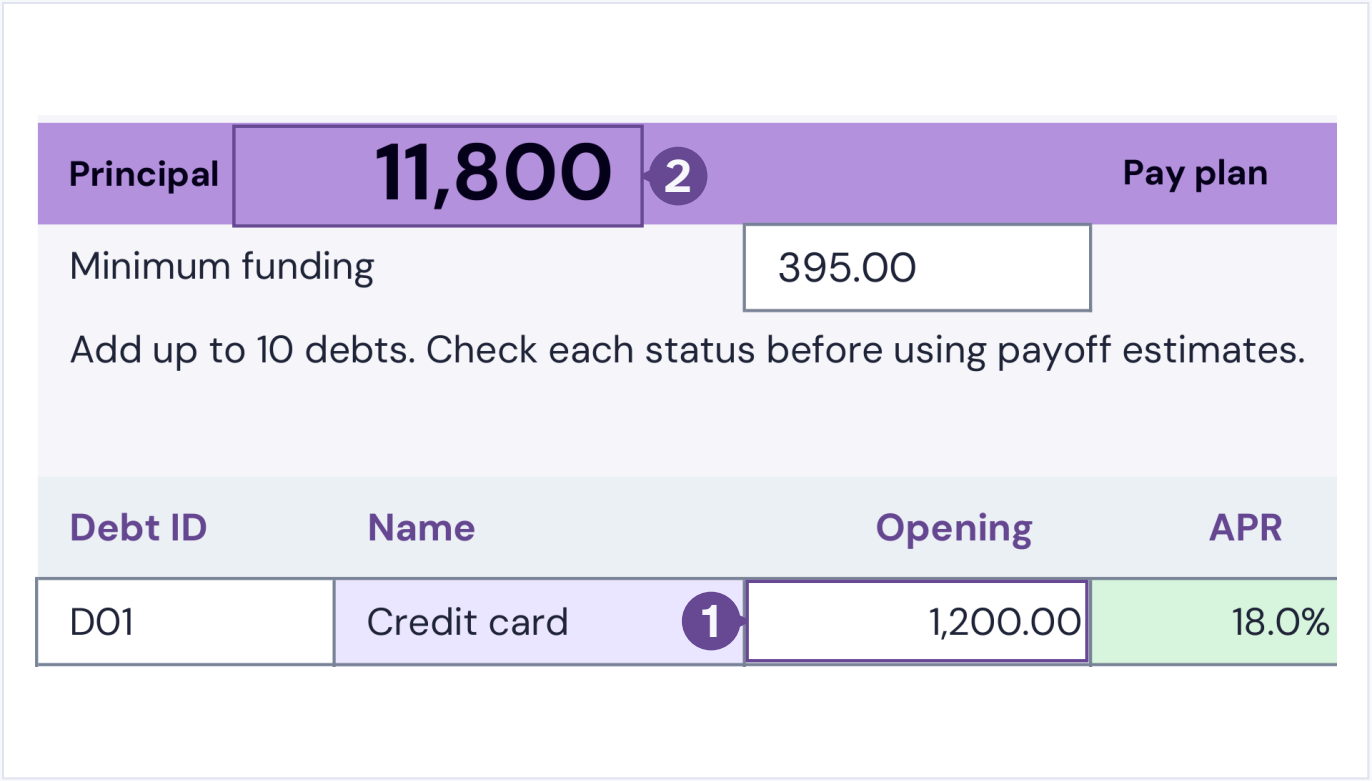

1 Type here: Target

2 Fills in by itself: Saved

Your guide, tab by tab.

Debt

Payoff dates are estimates: rates and minimums stay fixed, and no new debt is added.

1 Type here: Opening

2 Fills in by itself: Principal

Useful settings

Prefer Excel?	Open the .xlsx file in Microsoft Excel. Formulas stay live in both.
On a phone?	Make your copy on a computer first; the copy link is most reliable there. After that, the Google Sheets app opens your copy on any phone.
Dates outside the US	In Google Sheets, File > Settings > Locale sets how you type dates; Format > Number > Custom date and time sets how they show.
Make a fresh copy	In Google Sheets, File > Make a copy.
